

2023 Price List

FUEL SURCHARGE

With regret we must include a £10 fuel surcharge per block hour on all aircraft rates until further notice. We are working with the Airport to resolve this.

All prices include VAT, and hourly rates apply to time between take-off and landing, plus 10 minutes to allow for taxiing.

Hour Building Packages

Hour building packages are ideal for those wishing to build hours in a short time without the commitment of the non-equity packages on offer.

Aircraft	10 Hours	20 Hours	50 Hours	Landing Fee (Blackpool)
Cessna 172	£1700	£3190	£6900	£18.50
Robin 200	£1500	£2790	£6150	£15.50

Non-Equity Packages

A popular hour building option for existing licence holders. Gives you access to our fleet at a significantly discounted rate by paying a monthly standing order. The number of non-equity memberships is limited to 15 to avoid oversubscription.

Standing Order (Minimum 12 Months)

Training Packages

We offer comprehensive packages for both the PPL and LAPL courses, detailed on the following pages.

We have discovered that other schools at Blackpool sell “all-inclusive” packages which don’t include all study materials or a realistic number of landings. We estimate this will have costed approximately £2000 on top of your package by the end of your course.

We include everything in our package to ensure there are no additional training costs. The only things left for the student to pay will be a medical exam by a CAA aeromedical examiner, and the application fee when applying for the licence. Our package covers minimum course hours and a realistic number of landings. If you need to go over these we offer a discounted rate which is outlined in the package.

We are also happy to split the cost over three payments to allow you to enjoy the fantastic rates without the risk of paying the entire fee upfront.
